Grade K-May

Each activity is designed for ONE day of Technology learning. Each of the activities should take approximately 20 minutes to complete and each of the following should be completed over 4 weeks.

You will be keeping track of the activities you have done each week on the tracking sheet found in teams. This must be filled out each week in order to receive credit for completing the activity.

You can choose the order of how you complete them.

** As you can see there are more than 4 activities you can pick the 4 you would like.

Keyboarding Practice

Time to learn the keyboard!

https://www.abcya.com/games/keyboarding practice

Keyboarding Zoo is a fun and educational activity to help early elementary age students learn the keyboard. Children are encouraged to use their index or pointer fingers to match letters on the screen to their keyboards.

> Pause for People

In this Common Sense Education lesson on Digital Citizenship, students learn why it's important to be aware and respectful of people while using devices; in order to help them leverage technology safely, responsibly, and ethically.
